RESUME SUMMARY

A detail-oriented post-secondary student pursuing a diploma in Computer Information Technology (CIT) at the British Columbia Institute of Technology (BCIT). I have experience coding in **Python**, creating a remote server through a cloud computing vendor, and working on a project under an **Agile** project management methodology. I have an understanding of **networking principles** and the **Linux** terminal.

TECHNICAL SKILLS

Programming Languages

- Python
- JavaScript/Node.js
- HTML/CSS

Systems/ Tools

- MySQL
- Git and GitHub
- Figma

EDUCATION

British Columbia Institute of Technology (BCIT) | Computer Information Technology (CIT) Diploma Jan. 2024 - Present

- Gained hands-on experience working with virtual networks and writing shell scripts in the Linux terminal through my coursework
- Graduating in December 2025

Douglas College | Computing Science Certificate Sept. 2021 - Dec. 2023

- Completed coursework involving the basics of multiple programming languages and critical thinking

Cariboo Hill Secondary | High School Diploma Graduated in June 2021

PROJECTS

BChat - A social media application for BCIT students and alumni May 2024

BCIT | Vancouver, BC

- Collaborated with other students from the CIT program to create and present a project over the span of one month, following an Agile methodology
- Created an interactive design for the front-end of the application using Figma in part with fellow designers
- Made minor adjustments to the HTML and JavaScript of the application to enhance the design of certain web pages

Remote Server Installation Instructions Manual Sept 2024 - Oct 2024

BCIT | Vancouver, BC

- Wrote an instructions manual in markdown detailing how to create a remote server using DigitalOcean, a cloud computing vendor
- Created SSH config keys to securely connect to the remote server, and did so through the Linux terminal
- Hosted the instructions manual on GitHub and wrote to it through series of git commits

WORK EXPERIENCE

Social Media Coordinator Nov. 2021 - Jan. 2022

Boba Gang | Remote

- Created and curated content based on audience demographic and current trends while acting in accordance with brand guidelines and expectations
- Experimented with a variety of content-relevant hashtags and posting times to increase brand reach
- Scheduled content to be published using a planning application (Planoly)

Seasonal Stock Associate Nov. 2019 - Jan. 2020

ALDO Group | New Westminster, BC

- Retrieved, packaged, and quality-checked merchandise to be shipped for online orders in teams of 2-3
- Organized inventory at the front and back of the store
- Maintained store cleanliness during downtime
